Stage 1

www.primarysourcesonline.nl/psdirect/t5

Reformation Sources Online documents the history of the protestant Reformation in Europe. The first stage of this unique database provides access to over 1,300 digital facsimiles. The vast majority of these are *rare* and sometimes *unique* sources from the sixteenth and seventeenth centuries. They have carefully been selected by a top team of international scholars, all specialists in their fields.

Reformation Sources Online is the most comprehensive database on the protestant Reformation. All sources required for a complete and thorough understanding of the Reformation have been included and all major reformers are represented, as well as several of the lesser known figures. *Reformation Sources Online* is an indispensable tool for historians, church historians, book historians, and theologians alike.
