Most previous scholarship on Turkey and U.S. relations cover the Cold War period as well as current affairs with regard to security, strategy, and defense. Hence, the literature abounds with military orientation. This edited volume builds on a historical perspective and focuses on foreign relations, diplomacy, actors, mutual perceptions and reciprocity in diplomatic relations within the framework of the world conjuncture in the 1920s and 1930s. Relations with the U.S. have served as a balance in Turkey's Euro-Atlantic policy long before NATO was established. Likewise, re-building relations with the Republic of Turkey served U.S. interests in opening to the Near East and thus breaking away from its much lauded isolationist policy between the two world wars.

Living in the Ottoman Ecumenical Community

Essays in Honour of Suraiya Faroqhi

Edited by Vera Costantini and Markus Koller

- April 2008
- ISBN 978 90 04 16575 5
- *Hardback* (viii, 504 pp.)
- List price EUR 134.- / US$ 199.-
- The Ottoman Empire and its Heritage, 39

Regarding the Ottoman Empire and other early modern states as systems of different ecumenical communities, rather than only as political units, offers a better understanding of the various ways in which their subjects interacted. In this context the term ecumenical community designates social, religious and economic groups building up cross-border communities. Different ecumenical communities overlapped within the boundaries of a state or specific area and gave them their distinctive characters. This *festschrift* for Suraiya Faroqhi aims to describe some of the close contacts between various ecumenical communities within and beyond the Ottoman borders.

The Sons of Bayezid

Empire Building and Representation in the Ottoman Civil War of 1402-13

Dimitris J. Kastritsis

- October 2007
- ISBN 978 90 04 15836 8
- *Hardback* (xxiv, 252 pp.)
- List price EUR 95.- / US$ 141.-
- The Ottoman Empire and its Heritage, 38

The Civil War of 1402-1413 is often referred to as the *interregnum* because of its political instability, but the Civil War was a chapter of Ottoman history in its own right. This first full-length study of that period, begins with Timur's dismemberment of the early Ottoman Empire, following his defeat of Bayezid "the Thunderbolt" at Ankara (1402). After Timur's departure, the remains of the Ottoman realm were fought over by Bayezid's sons in a series of bloody wars involving both internal factions and foreign powers. Some of the earliest Ottoman historical literature was produced in the courts of the warring princes, especially by Mehmed Çelebi, the final victor, who sought to justify the killing of his brothers.

Ransom Slavery along the Ottoman Borders

(Early Fifteenth - Early Eighteenth Centuries)

Edited by Géza Dávid, *Eötvös Lorand University, Budapest* and Pál Fodor, *Institute of History of the Hungarian Academy of Sciences, Budapest*

- August 2007
- ISBN 978 90 04 15704 0
- *Hardback* (xx, 260 pp.)
- List price: EUR 89.- / US$ 132.-
- The Ottoman Empire and its Heritage, 37

Some aspects of Ottoman slavery have not yet received the attention they deserve. This volume attempts to bridge this gap. Twelve studies are organized around connected themes: the hunt for, the trade in, and the treatment, of captives in the Balkans and in Central Europe. The focus is on Hungary, and other border regions extending from the Crimea to Malta. It takes both an analytic and synthetic approach based on unpublished Ottoman and European archival material and examines both Christian slavery in the Ottoman Empire, as well as giving greater insight into the tribulations of Ottoman slaves in the Christian world.

The Ottoman Empire and its Heritage

Politics, Society and Economy

Editorial Board: Suraiya Faroqhi and Halil İnalcık

ISSN: 1380-6076

At the crossroads of the continents and encompassing a time span of six centuries, the Ottoman Empire influenced the histories of the Byzantine Empire and the Balkan States, the Middle East and Islam, from Iran to North Africa. Furthermore, fundamental developments in European History can be better understood in the light of the profound political and economic impact of this Empire. In the West, the rise of the national monarchies and of Protestantism, as well as capitalism and the development of certain industries, cannot be fully expounded without taking into account the Ottomans. *The Ottoman Empire and Its Heritage: Politics, Society and Economy* is a forum for studies of the Ottoman Empire and its relations with the rest of the world. It publishes broad surveys of the Ottoman world, diachronic studies of particular areas of cities, research into individual themes or issues, heavily annotated translations of sources, and thematic collections of articles. It has a cross-disciplinary character and will interest historians across the field.

Mongol Rule in Seljuk Anatolia

The Politics of Conquest and History-Writing, 1243-1282

Sara Nur Yıldız

- 2010
- ISBN 978 90 04 17433 7
- *Hardback* (appr. 300 pp)
- List price EUR 118.- / US$ 175.-
- The Ottoman Empire and its Heritage, 42

This volume explores the evolving structures of both the Mongol Ilkhanate based in Iran and its client state, the Seljuk sultanate of Anatolia. Writing outside the nationalist paradigms of mainstream scholarly literature, the author not only takes issue with the assumption of the marginality of Mongol rule in Anatolia, she also offers an alternative political narrative constructed according to a critical reading of the sources, especially of the underutilized, unabridged, sole manuscript of the main source for the period: Ibn Bibi's *Persian History*. Her reconstruction of an alternative narrative employs, as an explanatory device, the dynamics of factional court politics.

Forging Urban Solidarities

Ottoman Aleppo 1640-1700

Charles L. Wilkins, *Wake Forest University*

- October 2009
- ISBN 978 90 04 16907 4
- *Hardback* (288 pp)
- List price: EUR 126.- / US$ 186.-
- The Ottoman Empire and its Heritage, 41

As with most empires of the early modern period (1500-1800), the Ottomans mobilized human and material resources for war-making on a scale that was vast and unprecedented. The present volume examines the direct and indirect effects of war-making on Aleppo, an important Ottoman administrative center and Levantine trading city, as the empire engaged in multiple conflicts, including wars with Venice (1644-69), Poland (1672-76) and the Habsburg Empire (1663-64, 1683-99). Focusing on urban institutions such as residential quarters, military garrisons, and guilds, and using intensively the records of local law courts, the study explores how the routinization of direct imperial taxes and the assimilation of soldiers to civilian life challenged – and reshaped – the city's social and political order.
