

The Brill Journal Archive Online

The Brill Journal Archive Online offers access to almost 50,000 articles published before the year 2000, covering 6,000 issues of now 89 journals. The archive includes access to one of the world's oldest academic journals on Chinese studies, *T'oung Pao* (since 1890) and leading Brill journals such as *Behaviour* (since 1948), *Mnemosyne* (since 1948) and *Vetus Testamentum* (since 1951). In 2009 Brill will be publishing six new journals, which were previously published elsewhere, adding another 179 volumes to the archive!

Libraries will automatically have full access to the archival content of journals currently

subscribed to, and will continue to have access to archival content for as long as active subscriptions are maintained.

Access to the Brill journal archive will be of great benefit to the academic community, enabling scholars to search a far broader range of content and to explore historical perspectives on their area of study and research.

The Brill journal archive will be hosted on Brill's online journals platform at Ingenta.

Purchase Options

Though access to subscribed journals is included in the subscription price, institutional customers and consortia may wish to consider purchasing the whole collection or subject-specific collections. To save shelf space or simply to provide their patrons with all the online archives

of journals currently not subscribed to.

The purchase option *guarantees perpetual access* to the Brill Journal Archive Online. Brill has a long-term archival agreement with the Royal Dutch Library (KB) in The Hague (NL).
