

Scope

Language Dynamics and Change (LDC) is an international peer-reviewed journal that welcomes papers on all aspects of historical linguistics, including submissions that bridge the gap between historical linguistics and other relevant disciplines, such as the study of human evolution, archaeology, genetics, and computational modeling.

Ethical and Legal Conditions

Submission of an article for publication in any of Brills' journals implies the following:

1. All authors are in agreement about the content of the manuscript and its submission to the journal.
2. The contents of the manuscript have been tacitly or explicitly approved by the responsible authorities where the research was carried out.
3. The manuscript has not been published previously, in part or in whole, in English or any other language, except as an abstract, part of a published lecture or academic thesis.
4. The manuscript has not and will not be submitted to any other journal while still under consideration for this journal.
5. If accepted, the author agrees to transfer copyright to BRILL and the manuscript will not be published elsewhere in any form, in English or any other language, without prior written consent of the Publisher.
6. If the submission includes figures, tables, or large sections of text that have been published previously, the author has obtained written permission from the original copyright owner(s) to reproduce these items in the current manuscript in both the online and print publications of the journal. All copyrighted material has been properly credited in the manuscript. For more information on the reuse of figures, please go to brill.nl/downloads/Rights-in-Images.pdf.

Online Submission

LDC now uses online submission only. Authors should submit their manuscript online via the Editorial Manager (EM) online submission system at: editorialmanager.com/l dc. First-time users of EM need to register first. Go to the website and click on the "Register Now" link in the login menu. Enter the information requested.

When you register, select e-mail as your preferred method of contact. Upon successful registration, you will receive an e-mail message containing your Username and Password. If you should forget your Username and Password, click on the "Send Username/Password" link in the login section, and enter your first name, last name and email address exactly as you had entered it when you registered. Your access codes will then be e-mailed to you.

Prior to submission, authors are encouraged to read the 'Instructions to Authors'. When submitting via the website, you will be guided stepwise through the creation and uploading of the various files.

A revised document is uploaded the same way as the initial submission. The system automatically generates an electronic (PDF) proof, which is then used for reviewing purposes. All correspondence, including the editor's request for revision and final decision, is sent by e-mail.

Double-blinded Peer Review

LDC uses a double-blind peer review system, which means that manuscript author(s) do not know who the reviewers are, and that reviewers do not know the names of the author(s). When you submit your article via Editorial Manager, you will be asked to submit a separate title page which includes the full title of the manuscript plus the name, affiliation, full postal and e-mail addresses of all authors, including any acknowledgements. This page will not be accessible to the referees. All other files (manuscript, figures, tables, etc.) should not contain any information concerning author names, institutions, etc. The names of these files and the document properties should also be anonymized.

File Format

Manuscripts should be submitted in Word and in PDF with the fonts embedded, or in TeX/LaTeX and PDF with the fonts embedded.

Contact Address

For any questions or problems relating to your manuscript please contact: wichmann@eva.mpg.de. For eventual questions about Editorial Manager, authors can also contact the Brill EM Support Department at: em@brill.nl.

Submission Requirements

Language

Articles and book reviews should be written in American English. Spelling should be consistent throughout.

Length

Article manuscripts should not exceed 10,000 words. Book reviews should be 4,000 words or less.

Font

In writing the manuscript, use a normal, plain font (e.g. 12-point Times Roman). Do not use desktop publishing features such as justification, centering, automatic numbering, etc. *Italics* should only be used for emphasis, cited data, and second level headings. Italicize original data from any attested language. Asterisked forms pertaining to reconstructed or hypothetical languages are not italicized. Underlined text will be changed to italics. Bold should only be used for the main headings. Do not hyphenate words at the end of a line.

Transliteration and Non-Roman Fonts

All linguistic data must be transliterated. For glosses the Leipzig Glossing Rules should be followed. More specific font guidelines can be found on the Brill Author Gateway at: brill.nl/Author_Gateway.

Manuscript Structure

General

Manuscript pages should be numbered consecutively, single-spaced with wide margins on all sides (use ragged rather than justified right margins).

Papers that are submitted for initial consideration should be complete, including all notes, bibliographical references, tables, etc. Final versions must be proofread carefully before submission; please use your spelling and grammar check.

For general rules on style, see the *Chicago Manual of Style* (chicagomanualofstyle.org/home.html) or the MLA Style Guide. The journal reserves the right to conform contributions to its style.

Manuscript Order

Articles should be assembled in the following order: title page with all author details, title, abstract, keywords, introduction, content-related sections (each section with an appropriated numbered heading text), conclusions, acknowledgements, appendices, reference list, tables, figures (grouped together).

Abstract and Keywords

A short abstract (150 - 250 words) and two to six keywords in lower case letters should be included.

Notes on Contributors

A short CV (maximum 60 words) will be required upon acceptance of the final article to be used for the section with notes on contributors.

Headings

Please make sure that each heading level is clearly numbered. Headings should be restricted to two levels. First level headings in **bold**, capitals for first letter of main words (Abstract, Introduction, Results, Discussion, Acknowledgements, References or other variants if appropriate), flush left, separated by blank lines from text.

Second level headings in *italic*, capitals for first letter of main words, flush left, and separated by blank lines from text.

Third level headings are as for second level headings, but without an empty line separating from following text.

New paragraphs must be indented (except after headings). They should not be separated from each other by an empty line.

Capital Letters

Capitals should only be used for the first letter of main words of title and headings, first letters of sentences, first letters of proper names and first letters of specific words (e.g., Table, Fig.) that should be emphasized.

Comments

Use footnotes and not endnotes.

Quotations

Use single quotation marks (‘) for quotes within quotes and for translations within glosses. Quotations exceeding 40 words should be displayed in left-right indented form, as a separate paragraph, single-spaced and without quotation marks. Shorter quotes should be retained (with quotation marks) within the body of the text. Spelling within quotes should reflect the original. Cited data (including English) in the body of the text: The gloss follows, without a comma, in single quotes.

Lists

Indent all numbered examples and enclose each number in parentheses; and use such parenthesized numbers also in the body of the text whenever reference to such examples is made. For conventions on interlinear morpheme-by-morpheme glosses we refer to the Leipzig Glossing Rules (LGR). The most recent version of the LGR can be found at: eva.mpg.de/lingua/resources/glossing-rules.php.

Text Citations

Authors are responsible for the accuracy of quotations and for supplying complete and correct references. The complete details of references should be given in a reference list at the end of the paper, in alphabetical order.

References to the bibliography should be given in abbreviated form in the body text.

as: Surname (2011: 1-20), or (Surname, 2011): Breiner (1996: 158-167) or (Breiner, 1996).

In-text references to more than one author should be given as: (Wierzbicka, 1991; Montes, 1999: 36).

References

References should conform to the following examples:

Figures

All illustrative material must be copyright cleared on final submission for publication.

All figures and tables must be cited consecutively in the text. References to figures should consist of the complete word only at the beginning of a sentence and in the figure captions; otherwise the abbreviations "Fig." or "Figs" are used. Examples: Fig. 1, (Fig. 1), Figs 1, 2.

Figures should be drawn for reproduction within the type page leaving enough space for the figure captions. Figures should be numbered with Arabic numerals and include a title. Figures should be submitted as separate source files in .eps, .tif, or .jpg format, in a size suitable for the typesetting area of the journal which is (110 x 175 mm). The resolution of these files should be at least 300 dpi for half-tone figures, and 600 dpi for line drawings. Number the files, and indicate in the manuscript where they are to appear (Fig. 1 here).

The text in a figure must be legible, and should not be smaller than corps 7. The size of this lettering for any text in a figure should be the same for all figures in the manuscript.

Figure captions should not be attached to the figures but should be typewritten on separate sheets at the end of the manuscript.

Tables

Tables should be kept as simple as possible. Use of bold and capitalized words must be avoided. Vertical lines are not allowed, and horizontal lines must be limited to the minimum, with the data ordered in a convenient way.

References to tables should consist of the complete word, first letter capital (also in the middle of a sentence or in brackets) plus number in Arabic numerals: Table 7 or (Table 7).

Publication

Proofs

Upon acceptance, a PDF of the article proofs will be sent to authors by e-mail to check carefully for factual and typographic errors. Authors are responsible for checking these proofs and are strongly urged to make use of the Comment & Markup toolbar to note their corrections directly on the proofs. At this stage in the production process only minor corrections are allowed. Alterations to the original manuscript at this stage will result in considerable delay in publication

and, therefore, are not accepted unless charged to the author. Proofs should be returned promptly.

E-Offprints

A PDF file of the article will be supplied free of charge by the publisher to the corresponding author of articles or reviews for personal use. Brill is a RoMEO green publisher. Authors are allowed to post the pdf post-print version of their articles on their own personal websites free of charge. This means they can show the article exactly as it appears in print. The institute employing the author is allowed to post the post-refereed, but pre-print version of articles free of charge on its repository. The post-refereed, pre-print version means the final accepted version of the manuscript before typesetting.

Consent to Publish

Transfer of Copyright

By submitting a manuscript, the author agrees that the copyright for the article is transferred to the publisher if and when the article is accepted for publication. For that purpose the author needs to sign the **Consent to Publish** which will be sent with the first proofs of the manuscript.

Open Access

In case the author wishes to publish the article in **Open Access** he/she can choose the **Brill Open** option, which allows for a non-exclusive Open Access publication in exchange for an Article Publishing Fee, and sign a special **Brill Open Consent to Publish**.

More information on Brill's policy on Open Access can be found on brill.nl/open-access-policy. The Brill Open Consent to Publish can be downloaded from brill.nl/downloads/BrillOpen-Consent-to-Publish.pdf.
